

This Logic model was developed to demonstrate the collective impact of all initiatives funded by the Assess and Restore funding within the main objectives of the funding and the guideline that it was designed to support.

MOH-M: This indicator is being collected/reported by the MOHLTC and is being used to evaluate the impact of the A&R funding

MOH-P: This indicator is one of the Ministry's optional project indicators that are to be collected/reported by LHINs to the MOH as part of each A&R funding cycle

DAPP: This indicator has been identified by the Direct Access Priority Process Cluster Working Group as a key evaluation indicator to be collected/reported by each participating project

FSMC TG: This indicator was suggested by the RCA Frail Senior/Medically Complex Task Group

ESD: This indicator has been identified by the Enhanced Service Delivery Cluster Working Group as a key evaluation indicator to be collected/reported by each participating project
